Topic #2: DIY Biology versus Bioterrorism Pre-discussion questions. Answer briefly. Use only the space provided. Do not exceed one page.		
1)	For <u>one</u> of the synthetic biology and biosecurity "myths" f the potential threat that has been identified by the scientifi (Do <i>not</i> copy the bold points from the paper.)	
2)	Give some of the reasons that this threat has not materialize	zed as a real problem.
3)	Search the web for one recent (within the last two years) e Biohacker / iGEM / crowdfunded project. What was the gachieve their objective? Include a URL for the project or a	oal? Was it realistic? Did they
4)	Put on a Biohacker "Black Hat" for a moment. What do yo threat that should be keeping us up at night? Do you have
