

Wiki Report

You are required to complete a “written report” in the form of creating or updating a Wiki page on OpenWetWare (under /CH391/S14). This page should provide an in-depth discussion of the research area that you have chosen. Aim for ~1000 new words with ≥ 5 citations to the primary scientific literature, including at least 3 research papers. Also create or find at least one explanatory figure or image to include in your topic and link to at least one previous iGEM project related to your topic, if possible.

Week 1

~1000+ new words

New wiki or modify existing one

5+ citations to primary scientific literature

3+ citations must be research papers

1+ explanatory figure/image

Link to 1+ related iGEM project, if possible

Report should provide sufficient background info for your "key" paper.

****PROPER citations mandatory**

Grading

Points

Format & length x/2

Style, Grammar & Effort x/3

Content x/6

Proper citations x/2

Responses, revisions x/2

Total: 15 pts

Week 2

Respond to Wiki critiques

Revise your wiki page.
